“ I have done multiple Google searches on Don Laster and just stumbled across this obituary. I wish I could have told him in person (although I'm sure he knew already) what he meant to me. He was a mentor- a man I respected so much! I was a teenager- working at the drug store and I somehow managed to get my foot into the pharmacy area. Everything was science to me back then (still is!). Had it not been for his presence in my life, I doubt I would have pursued an education to the extent that I did and become the nurse I am today. This is 12 years after his passing... I am hopeful that this brings a smile to his family. He was an amazing man and I am so grateful that I can say that I knew him! 💙
